

# FORM 51-102F1 MANAGEMENT DISCUSSION AND ANALYSIS FOR FREEGOLD VENTURES LIMITED

**DATED: MAY 14TH, 2013** 

The following discussion and analysis ("MD&A") is management's assessment of the results and financial condition of Freegold Ventures Limited (the "Company" or "Freegold") for the three month period ended March 31<sup>st</sup>, 2013 and should be read in conjunction with the condensed consolidated financial statements for the three month period ended March 31<sup>st</sup>, 2013 and related notes contained in the report. All amounts are expressed in Canadian dollars unless otherwise noted. Additional information on the Company, including its annual information form, is available on SEDAR at www.sedar.com.

This discussion contains certain forward-looking information and is expressly qualified to the cautionary statement at the end of this MD&A.

## INTERNATIONAL FINANCIAL REPORTING STANDARDS

Effective January 1<sup>st</sup>, 2011, the accounting framework under which financial statements are prepared in Canada for all publicly accountable enterprises changed to International Financial Reporting Standards ("IFRS"). The Company's transition date to IFRS was January 1<sup>st</sup>, 2010.

## **BUSINESS OF FREEGOLD**

Freegold is an exploration stage company engaged in the acquisition, exploration and evaluation of mineral properties of merit with the aim of developing them to a stage where they can be exploited at a profit or to arrange joint ventures whereby other companies provide funding for development and exploitation. The Company was incorporated in 1985 and is listed on the Toronto Stock Exchange under the symbol "FVL". As of May 14<sup>th</sup>, 2013, the Company had 74,171,029 shares outstanding and a market capitalization of CDN \$27 million. The Company has its registered corporate office in Vancouver, Canada.

## **REVIEW OF EXPLORATION PROJECTS**

The Company is focused on gold exploration in Alaska and has two primary exploration projects: the Golden Summit and Vinasale properties. Exploration in 2012 included the completion of diamond drill programs on these projects and the calculation of updated National Instrument 43-101 ("NI 43-101") compliant resource calculations on both projects.

In March 2011, the Company completed its first NI 43-101 compliant resource calculations on the Golden Summit and Vinasale properties. The Golden Summit NI 43-101 resource was updated in December 2011 and again in October 2012. The Vinasale resource was updated in March 2012 and again in March 2013, based on the 2012 drilling results.

## Golden Summit, Alaska

Since 1992, Freegold has explored the Golden Summit Project, which is located 20 miles north of Fairbanks, Alaska and less than 5 miles from one of Alaska's largest gold mines (Kinross' 350,000 oz/year Fort Knox Mine). Freegold's approximately 7-mile long by 1 to 2 mile wide Golden Summit property is located at the center of the historic Fairbanks mining district. This property contains over 80 known gold occurrences, and has hosted the district's largest and highest-grade historic underground gold producers. In the following discussion, gold is sometimes abbreviated by its elemental symbol, "Au"; and "g/t" or "gpt" refers to grams of gold per metric tonne.

Detailed exploration conducted to date covers only a limited portion of the 7 mile long property. The balance of the property contains numerous old mines and prospects that have not as yet been systematically explored.

The Golden Summit Project is comprised of a series of long-term leases ("Keystone Claims", "Tolovana Claims", "Newsboy Claims", "Green Claims", "Chatham Claims" and "Alaska Mental Health Trust claims" see below for further details) and claims owned by Freegold. The project is subject to various sliding net smelter return royalties ("NSR's") ranging from 1-4.5% dependent on the price of gold.

## **KEYSTONE CLAIMS**

By an agreement dated May 17<sup>th</sup>, 1992, the Company entered into a lease on the Keystone claims whereby the Company agreed to make advance royalty payments of US\$15,000 per year. In May 2000, the agreement was renegotiated and on 15 October 2000, a US\$50,000 payment was made in cash and shares. On November 30<sup>th</sup>, 2001, the Company restructured the advance royalty payments as follows:

	 US Funds	
1992 – 1998 (US\$15,000 per year)	\$ 105,000	(paid)
2000	\$ 50,000	(\$25,000 paid in cash and \$25,000 with
		9,816 treasury shares issued)
2001 - 2006 (US\$50,000 per year)	\$ 300,000	(paid)
2007	\$ 150,000	(paid)
2008	\$ 150,000	(paid \$75,000 in 2008 with the remaining \$75,000 paid in 2009, subject to a payment extension)
2009	\$ 150,000	(paid)
2010	\$ 150,000	(paid)
2011	\$ 150,000	(paid)
2012	\$ 150,000	(paid)
2013 - 2019 (US\$150,000 per year)	\$ 1,050,000	<i>.</i>

The property is subject to a 3% NSR.

In 2011, Freegold negotiated an extension of the lease for so long as permitting, development mining or processing is being conducted on a continuous basis and, if the property is not in commercial production, provided that the advance royalties are being paid, the lease shall be renewable for successive 10 year terms.

## **TOLOVANA CLAIMS**

In May 2004, the Company entered into an agreement with a third party (the "Seller") whereby the Seller transferred 100% of the rights via a Quit Claim Deed to a 20-year lease on the Tolovana Gold Property in Alaska.

Under the terms of the agreement, the Company assumed all of the Seller's obligations under the lease, which include making annual payments of \$1,000 per month for the first 23 months increasing to \$1,250 per month for the 24th to the 48th months and increasing to \$1,500 after the 49th month and for the duration of the lease. These payments are current. In addition, the Company made a payment to the seller of US\$7,500 on signing and issued 66,667 shares on regulatory approval. An additional 33,333 shares were to be issued within 30 days of a minimum 200,000 ounce mineral resource being calculated on the property if the resource was established in five years or less from the date of the agreement. No resource was calculated during the prescribed time frame so these shares were not issued.

The property is subject to a sliding scale NSR as follows: 1.5% NSR if gold is below US\$300 per ounce, 2.0% NSR in the event the price of gold is between US\$300 to US\$400, and a 3.0% NSR in the event that the price of gold is above US\$400

### **NEWSBOY CLAIMS**

By lease agreement dated February 28<sup>th</sup>, 1986 and amended March 26<sup>th</sup>, 1996, the Company assumed the obligation to make advance royalty payments of US\$2,500 per year until 1996 (paid) and US\$5,000 per year until 2006 (paid). During 2006, the Company renewed the existing lease term for an additional 5 years on the same terms and conditions.

On October 12<sup>th</sup>, 2012, the Company's amended lease agreement was formalized and the lease term was extended for a five year term, from March 1<sup>st</sup>, 2011 to February 29<sup>th</sup>, 2016. The minimum royalty payable under the amended lease is US\$12,000 per year for the term of the lease. These payments are current. In addition, the Company will have the option to further extend the lease for a term of an additional 5 years by making a one-time payment of US\$50,000. The claims are subject to a 4% net smelter returns royalty ("Newsboy NSR"). The Company has the option to purchase the Newsboy NSR for the greater of the current value or US\$1,000,000 less all advance royalty payments made.

### **GREEN CLAIMS**

By lease agreement dated December 16<sup>th</sup>, 2010, the Company entered into a long term lease agreement with Christina Mining Company, LLC for certain mineral claims in the Fairbanks Mining District of Alaska known as the Green Property. The Company is required to make annual cash payments and exploration expenditures as follows:

	Payments	Exploration Expenditures	
December 1 <sup>st</sup> , 2010	US\$100,000 (paid)	-	
December 1 <sup>st</sup> , 2011	US\$100,000 (paid)	US\$250,000 (incurred)	
December 1 <sup>st</sup> , 2012	US\$100,000 (paid)	US\$500,000 (incurred)	
December 1 <sup>st</sup> , 2013	US\$100,000 "	US\$750,000 `	
December 1 <sup>st</sup> , 2014	US\$100,000	US\$1,000,000	
December 1 <sup>st</sup> , 2015 to 2019	US\$100,000 per year	<del>-</del>	
December 1 <sup>st</sup> , 2020 to 2029	US\$200,000 per year	-	
			,
Total	US\$3,000,000	US\$2,500,000	

## **CHATHAM CLAIMS**

By lease agreement dated July 11<sup>th</sup>, 2011, the Company entered into a four year lease agreement on certain mineral claims in the Fairbanks Mining District of Alaska known as the Chatham Property. The claims are subject to a 2% net smelter returns royalty ("Chatham NSR"). The Company is required to make annual cash payments and exploration expenditures as follows:

	Payments	Exploration Expenditures
Execution of agreement	US\$20,000 (paid)	-
July 11 <sup>th</sup> , 2012	US\$30,000 (paid)	US\$50,000 (incurred)
July 11 <sup>th</sup> , 2013	US\$40,000	US\$50,000
July 11 <sup>th</sup> , 2014	US\$50,000	US\$50,000
July 11 <sup>th</sup> , 2015	- ' '	US\$50,000
Total	US\$140,000	US\$200,000

The Company also has the option to purchase the property for US\$750,000.

The Company has the option to purchase one-half of the Chatham NSR, representing 1 % for US\$750,000.

Certain claims are subject to a 7% working interest held in trust for Fairbanks Exploration Inc. ("FEI") by the Company. Under this Quit Claim Deed Freegold is required to fund 100% of the project until production is achieved at which point FEI is required to contribute 7% of any approved budget. These claims are subject to a 2% net smelter returns royalty ("FEI NSR") to FEI. The Company has a 30 day right of first refusal, in the event that the 7% working interest of FEI or the FEI NSR is to be sold by FEI. The Company can also purchase the FEI NSR at any time following commercial production, based on its net present value as determined by mineable reserves.

## **Alaska Mental Health Trust Property**

By lease agreement dated June 1<sup>st</sup>, 2012, the Company entered into a new mining lease over certain mineral claims in the Fairbanks Mining District of Alaska known as the Alaska Mental Health Trust Property. The property will be controlled by the Company through a three year lease agreement and may be extended by two extensions of three years. The Company is required to make annual cash payments and exploration expenditures as follows:

	Payments	Exploration Expenditures	
Execution of agreement	US\$25,000 (paid)	-	
Years 1-3	US\$2,000 per year	US\$25,000 per year	
Years 4-6	US\$3,000 per year	US\$50,000 per year	
Years 7-9	US\$4,000 per year	US\$75,000 per year	
Total	US\$52,000	US\$450,000	

The claims are subject to the following NSR:

Net Royalty
1.0%
2.0%
3.0%
3.5%
4.5%

In February 2013, the Company entered into an agreement to amend the terms of the lease to reflect an increase in the size of the lease. As a result, the work commitment schedule will be

modified to increase the exploration expenditure requirements for years 1 to 3 to US\$125 per acre per year, years 4 to 6 to US\$235 per acre per year and years 7 to 9 to US\$355 per acre per year.

#### **EXPLORATION 2011**

In March 2011, a resource was calculated on the Dolphin Zone, which is located in the western most portion of the Golden Summit Project. The resource estimate was based on 49 previously drilled reverse circulation (RC) and diamond drill core holes totaling 5,966 meters. Using a 0.3 g/t cut-off the resource calculated was 174,000 ounces (7,790,000 tonnes @ 0.695 g/t) in the indicated category and 526,000 ounces (27,010,000 tonnes @ 0.606 g/t) in the inferred category.

The full report entitled, "Geology and Mineralization and Mineral Resource Estimate for the Golden Summit Project, Fairbanks Mining District, Alaska" by David D. Adams, BSc, MSc, P.Geo. and Gary H. Giroux, P.Eng, MASc., dated March 31, 2011, was filed on SEDAR as "Amended & restated technical report (NI 43-101)", on April 1<sup>st</sup>, 2011.

A Phase 1 diamond drilling program commenced in mid-February of 2011 on the Dolphin prospect and the areas covered by the 2010 induced polarization survey. This program was expanded in May and a total of 6,328 metres in 28 holes were completed by the end of June. For all drill results reference should be made to the full news releases contained on the Company's website at <a href="https://www.freegoldventures.com">www.freegoldventures.com</a>. The program expanded and upgraded the existing historical resources located in the Dolphin area.

The resource estimate was completed by Giroux Consultants Ltd. of Vancouver, BC, Canada. The indicated and inferred resource using a 0.3 g/t cut-off was:

### DOLPHIN ZONE INDICATED RESOURCE

Au Cut-off		Au	Cor	ntained
(g/t)	Tonnes	(g/t)	kgs Au	ozs Au
0.30	17,270,000	0.62	10,620	341,000
0.35	14,840,000	0.66	9,820	316,000

#### DOLPHIN ZONE INFERRED RESOURCE

		Grade		
Au Cut-off		Au	Contained	
(g/t)	Tonnes	(g/t)	kgs Au	ozs Au
0.30	64,440,000	0.55	35,380	1,137,000
0.35	50,460,000	0.61	30,830	991,000

The updated resource estimate was based on 77 drill holes (11,802m) that were drilled into the mineralized Dolphin stock, which is a multi-phase, felsic to intermediate intrusion. The stock has been mapped on surface and is approximately 366 metres by 610 metres (1,200 by 2,000 ft) in area and elongate in an east-west direction. The resource was calculated using a block model with blocks measuring 10 by 10 by 5 metres in size that were populated using a combination of ordinary kriging and indicator kriging; blocks within the Dolphin mineralized solid were summed to arrive at the total tonnage and average grade.

The full report entitled, "2011 Update Report on the Geology and Mineralization and Mineral Resource Estimate for the Golden Summit Project, Fairbanks Mining District, Alaska" by David D. Adams, BSc, MSc, P.Geo. and Gary H. Giroux, P.Eng, MASc., dated January 26<sup>th</sup>, 2012, was filed on SEDAR on January 26<sup>th</sup>, 2012.

Drilling commenced in January 2012 and was underway until late September 2012 with the objective of increasing the resource at Golden Summit. A total of 14,917 metres were drilled on

both the Dolphin and Cleary Hill areas. The program in the Cleary Hill area was designed to infill the 400 metre area that coincides with the intersection of the northwest-striking Cleary Hill zone and the northeast-striking Dolphin zone.

For all drill results, reference should be made to the full new releases contained on the Company's website at www.freegoldventures.com.

On October 31<sup>st</sup>, 2012 the Company reported its updated NI 43-101 resource for the Dolphin/Cleary Hill area. The resource was based on an additional 74 holes drilled in 2012 and extended the mineralized zone to the north and east. The resource estimate was completed by Giroux Consultants Ltd. of Vancouver, BC, Canada. In the following tables a 0.30 g/t is highlighted as a possible open pit cut off. No economic parameters were utilized in determining the cutoffs.

## **DOLPHIN ZONE INDICATED RESOURCE**

Au Cut-off	Tonnes> Cut-off	(	Grade > Cu	ut-off
(g/t)	(tonnes)	Au	Con	tained
		(g/t)	kgs Au	ozs Au
0.20	101,530,000	0.55	55,940	1,799,000
0.25	86,660,000	0.61	52,600	1,691,000
0.30	73,580,000	0.67	49,000	1,576,000
0.35	62,620,000	0.73	45,460	1,462,000
0.40	53,410,000	0.79	42,030	1,351,000
0.50	39,360,000	0.91	35,740	1,149,000

1.10	14,430,000	1.80	25,900	833,000
1.20	11,580,000	1.95	22,630	727,000
1.30	9,400,000	2.12	19,920	640,000

The mineralized Dolphin Solid increased in volume by 254 % over the one used in the December 2011 Estimate (Adams, Giroux, 2012). It has been deepened and extended to the north and east to include the Cleary Hill area. As a result the number of holes within the mineralized solid increased from the 77 (11,802m) used in the 2011 estimate to 177 (35,829m) in this update.

The resource was calculated using a block model with blocks measuring 10 by 10 by 5 metres in size that were populated using a combination of ordinary kriging and indicator kriging; blocks within the Dolphin/Cleary Hill mineralized solid were summed to arrive at the total tonnage and average grade.

The full report entitled, "*Technical Report for the Golden Summit Project, Fairbanks Mining District, Alaska*" by Mark Abrams, BSc, MSc, P. Geo. and Gary H. Giroux, P. Eng, MASc., dated December 14<sup>th</sup>, 2012, was filed on SEDAR on December 17, 2012.

In February 2013 drilling recommenced on the Dolphin portion of the Golden Summit Project. A total of 11,392 feet (3,472 metres) were drilled during the winter program. Assays for the first five holes have been reported to date. Results continue to demonstrate that the Dolphin intrusive remains open to the north, southwest and east to depth with gold grades generally increasing at depth. Significant results are as follows:

Hole Number	Hole Inclination	Depth of Hole (ft)	From (ft)	To (ft)	Interval (ft)	Interval (m)	Au g/t
Dolphin Area							
GSDL1301	-90	1489.5	937	1489.5	552.5	168.4	0.64
			1047	1489.5	442.5	134.9	0.71
GSDL1302	-90	2000	787	923.5	136.5	41.6	0.51
			986.5	2000	1013.5	308.9	0.63
			1259	1626.6	367.6	112.0	1.03
GSDL1303	Abandoned						
GSDL1304	-90	2000	32	367	335	102.1	0.21
			648	2000	1352	412.1	0.58
		Incl	678	848	170	51.8	0.61
		Incl	1606	2000	394	120.1	0.87
GSDL1305	-90	2000	12	232	220	67.1	0.23
			512	530	18	5.5	1.96
			619.5	2000	1380.5	420.8	0.46
		Incl	1837	2000	163	49.7	1.02

Width refers to drill hole intercepts, true widths can not be determined due to uncertain geometry of mineralization. Values greater than 30 g/t Au were cut to 30 g/t Au.

Freegold is also working towards completion of an updated NI 43-101 compliant resource based on the oxide component of the current resource inventory. The oxide cap at Golden Summit is contained largely in the upper 200 feet (60 metres) of the rock column.

### **Christina Area**

During the summer of 2011, a ground based geophysical program (induced polarization) was undertaken on the Christina area of the Golden Summit Project.

In addition to the drilling completed in the Dolphin/Cleary Hill areas, Freegold also completed its first drilling program in the Christina area, where a +5,000 feet long shear zone which hosts several past-producing high grade gold mines has been identified. Historic drilling on the Christina prospect from 1978 through 1988 focused on defining high grade resources on several northwest striking, southwest dipping vein systems. Given recent positive drill results at the Cleary Hill mine area, the Company is investigating the possibility that the Christina area also has the potential to host bulk tonnage mineralization that would be suitable for low cost open pit extraction. In 2011, 1,230 metres of drilling were completed in the Christina area and an additional 1,686 metres were completed in 2012.

For all drill results, reference should be made to the news releases available on the Company's website at www.freegoldventures.com.

## **Vinasale Project**

In 2007, Freegold signed an Exploration with an Option to Lease agreement with Doyon Limited ("Doyon"), an Alaskan regional Native corporation, on the Vinasale Gold Project. Vinasale is located 16 air miles south of McGrath, Alaska. The Vinasale deposit occurs in a north trending belt that hosts a number of igneous intrusion-related gold deposits including NovaGold Resources' and Barrick Gold's 39.3 million ounce Donlin Creek deposit and Fire River Gold's high grade Nixon Fork copper-gold deposit.

The Vinasale Mountain Gold Project is located on fee-simple lands owned by Doyon. In February 2007 Freegold signed a Mining Exploration Agreement with an Option to Lease with Doyon, Limited aimed at exploring and developing the project. The agreement also allows for exploration of several adjacent areas owned or controlled by Doyon, including a large block of Doyon "selected" lands. Doyon controls the subsurface rights and most of the surface rights to all of these areas. Under the Exploration Agreement, Freegold must make payments of US\$360,000 (US\$50,000 first year) over five years, make annual scholarship donations of US\$10,000, and make exploration expenditures totaling US\$5,000,000 (US\$300,000 first year). Freegold may at its option enter into a one year extension by making a further payment of US\$100,000 and incurring an additional US\$1,500,000 in exploration expenditures which it elected to do in February 2012. In the event the property is reduced by 50% or more, the additional exploration expenditures shall be reduced to US\$1,000,000. Freegold may enter into one or more Mining Leases with Doyon on lands on which it has expended at least US\$600,000, carried out at least 10,000 ft of core drilling. and submitted a pre-feasibility study. Freegold will be required to make advance royalty payments and continue to conduct minimum exploration expenditures on leased lands until such time as a Board approved positive feasibility study has been delivered. Advance royalty payments shall be US\$100,000 per year during the initial five-year period, increasing to US\$250,000 per year thereafter. The minimum mandatory exploration expenditures shall be equal to the greater of US\$25/acre or US\$250,000 for each of the first five years, and US\$50/acre or US\$500,000 in subsequent years. Upon submission of a Board approved feasibility study Doyon will have the right, for a period of 180 days, to acquire a minimum 5%, and a maximum 10% participating interest in Freegold's interest. Within 60 days of Doyon electing to participate, Doyon shall contribute to a joint venture an amount equal to 2.25 times Doyon's proportionate share of Freegold's cumulative expenditures on the leased area after the Effective Date of the Lease. Following the expenditure of such funds, each party will be required to contribute its pro rata share of further expenditures. On January 30<sup>th</sup>, 2013, the Company paid US\$70,000 to Doyon to extend the option to lease agreement on the Vinasale Property by one year and will be required to incur an additional US\$1,500,000 in exploration expenditures.

In March 2011, the Company completed the first NI 43-101 resource estimate on the Vinasale Project using a cutoff value of 0.5 grams/tonne (g/t Au) as a possible open pit cut-off (the economic cut-off being unknown). This effort resulted in an inferred resource of 37.3 million tonnes averaging 1.11 g/t Au for 1,331,000 ounces. A full NI 43-101 technical report on the Vinasale Project entitled, "Geologic Summary and Mineral Resource Estimate Report for the Vinasale Gold Project, McGrath Mining District, Alaska" by David D. Adams, BSc, MSc, P.Geo. and Gary H. Giroux, P.Eng, MASc., dated March 31<sup>st</sup>, 2011, was filed on SEDAR as an "Amended & restated technical report (NI 43-101)" on April 1, 2011.

## **Recent Exploration**

In 2011, the Company undertook a 3,501 metre drilling program in addition to a ground geophysical survey (induced polarization) over the surface projection of the intrusive stock that is host to auriferous mineralization at Vinasale. Results of the induced polarization program indicate that in addition to the Central Zone, where all the drilling was conducted in 2011, a geophysical anomaly was defined in the North East Zone where limited previous drilling has indicated mineralization of similar character to the Central Zone.

In March 2012, Freegold updated its NI 43-101 resource on the Vinasale project based on the 3,501 metres of diamond drilling completed in 2011. For all drill results reference should be made to the full news releases contained on the Company's website at <a href="https://www.freegoldventures.com">www.freegoldventures.com</a>.

The resource estimate was completed by Giroux Consultants Ltd. of Vancouver, BC, Canada. The full report entitled, "Geologic Summary and Mineral Resource Estimate Report for the Vinasale Gold Project, McGrath Mining District, Alaska" by David D. Adams, BS, MS, P.Geo. and Gary H. Giroux, P.Eng, MASc., dated March 30, 2012, was filed on SEDAR on March 30, 2012.

The addition of 13 drill holes drilled in 2011 expanded the resource at a 0.5 g/t cut-off by 32.4 % on tonnage at essentially the same grade for an increase of 30.4 % ounces of contained gold from the original March 2011 resource estimate.

A total of 85 drill holes containing 10,945 gold assays were completed on the project within three areas: the Central, Northeast and South Zones. The highest density of drilling has been completed in the Central Zone where 41 drill holes totaling 9,948 metres were used in estimating the resource for the Central Zone. Gold assays were capped at 22.0 grams/tonne gold. Composites, 5 metres in length, were used to model the grade continuity using semivariograms. Blocks measuring 10 by 10 by 5 metres were populated using Ordinary Kriging. No economic parameters were utilized in determining the cutoffs.

## **Exploration 2012**

The 2012 exploration program drill tested both the Central Zone as well as the North East Zone. A total of 13 holes (3,425 metres) were drilled during the 2012 exploration program. Results of the additional drilling in the Central Zone continue to demonstrate that the mineralization in the Central Zone remains open to expansion to the south, east and to depth. The wide spaced drilling carried out in the North East Zone (holes VM1201 and VM1204) indicated that additional drilling is warranted in this area as a possible resource expansion target.

For all drill results reference should be made to the full news releases contained on the Company's website at www.freegoldventures.com

In March 2013, Freegold updated its NI 43-101 resource on the Vinasale project based on diamond drilling completed in 2012. The 2012 drill program resulted in the estimation of indicated material for the first time and also expanded the inferred category from the March 2012 resource estimate. Of significance is the increase in grade in the indicated category and it is anticipated that additional drilling within the core of the Central Zone may have the potential to increase both the grade and tonnage within the indicated category.

The resource estimate was completed by Giroux Consultants Ltd. of Vancouver, BC, Canada. The full report entitled, "*Technical Report for the Vinasale Mountain Prospect, McGrath Mining District, Alaska*" by Mark J. Abrams, CPG, MS. and Gary H. Giroux, P.Eng, MASc., dated March 31<sup>st</sup>, 2013, was filed on SEDAR on April 2, 2013.

A total of 98 drill holes containing 11,284 gold assays were completed on the project within three areas: the Central, Northeast and South Zones. The highest density of drilling has been completed in the Central Zone where 53 drill holes totaling 12,352 metres were used in estimating the resource for the Central Zone. Gold assays were capped at 20 grams/tonne gold. Composites, 5 metres in length, were used to model the grade continuity using semivariograms. Blocks measuring 10 by 10 by 5 metres were populated using Ordinary Kriging.

The mineralization in the Central Zone extends over a strike length of 400 metres and remains open to the south and to depth.

The 2013 Vinasale exploration program is currently under consideration. Mineralization in the Central Zone remains open to the south and there maybe the potential for additional resource definition in the North East Zone. The North East Zone was further defined by the 2011 ground geophysical program and limited prior drilling.

The Qualified Person who has reviewed and approved the technical disclosure contained in the Management Discussion is Curtis Freeman, MSc., PGeo., a consultant to the Company.

### SUMMARY OF QUARTERLY RESULTS

The following selected financial information is derived from the unaudited condensed consolidated interim financial statements of the Company prepared in accordance with IFRS.

## **Quarters Ended (unaudited)**

Total revenues Net comprehensive loss – before tax Net comprehensive loss per share Total assets

Mar. 31 <sup>st</sup> 2013	Dec. 31 <sup>st</sup> 2012	Sept. 30 <sup>th</sup> 2012	June 30 <sup>th</sup> 2012	Mar. 31 <sup>st</sup> 2012	Dec. 31 <sup>st</sup> 2011	Sept. 30 <sup>th</sup> 2011	June 30 <sup>th</sup> 2011
				*	*

<sup>\*</sup>The Company's condensed consolidated financial statements have been restated to translate the assets and liabilities of the Company's subsidiaries using the period-end exchange rate, instead of the historical exchange rate.

## **RESULTS OF OPERATIONS**

## 1st quarter ended March 31st, 2013

The three month period ended March 31<sup>st</sup>, 2013 resulted in a total comprehensive loss of \$44,377, which compares with a total comprehensive loss of \$976,818 for the three month period ended March 31<sup>st</sup>, 2012. As the Company's condensed consolidated financial statements translate the assets and liabilities of the Company's subsidiaries using the period-end rates, this resulted in a foreign currency translation gain of \$671,215 as the US dollar became stronger relative to the Canadian dollar during the current period. During the previous three month period ended March 31<sup>st</sup>, 2012, there was a foreign currency translation loss of \$536,823 as the US dollar was weaker relative to the Canadian dollar during that period. General and administrative expenses for the three month period ended March 31<sup>st</sup>, 2013 were \$468,968, an increase of \$19,080 compared to \$449,888 for the three month period ended March 31<sup>st</sup>, 2012. The other changes in comprehensive loss were mainly attributable to:

- o a decrease of \$25,108 in consulting fees, from \$57,508 in 2012 to \$32,400 as several consultants were hired to assist in its investor awareness campaigns and to assist in financing activity during the prior year;
- an increase of \$13,535 in non-cash share-based compensation expenses, from \$12,176 in 2012 to \$25,711 that were charged upon the granting and vesting of long-term incentive stock options;
- an increase of \$33,047 in travel and transportation costs, from \$85,081 in 2012 to \$118,128 to expand investor awareness and attend several trade shows. Travel and transportation costs also included the monitoring of the ongoing exploration activities in Alaska;
- promotion and shareholder relations costs of \$76,277 were incurred as compared to \$79,514 in 2012, which included attendance at various trade shows, advertising, news releases, distribution fees and marketing materials;

- an increase of \$12,447 in wages, from \$94,311 in 2012 to \$106,758, due to the hiring of a part-time secretary;
- o a decrease of \$6,196 in interest income from \$10,115 in 2012 to \$3,919, due to a decrease in cash on hand:
- o a financing cost of \$276,316 was recognized when the Company extended the exercise date for 2,677,999 share purchase warrants from March 16, 2013 to September 16, 2013;
- o an unrealized foreign exchange gain of \$27,969 was the result of the US dollar being stronger relative to the Canadian dollar;

All other general and administrative costs were relatively similar to those incurred in the previous three month period.

During the three month period ended March 31<sup>st</sup>, 2013, the Company incurred the below acquisition and exploration and evaluation property expenditures:

	Golden Summit Property	Vinasale Property	Total
Acquisition costs			
Balance, 31 December 2012 Additions Foreign currency translation	\$ 1,428,678 30,480 30,300	\$ 194,006 81,280 4,114	\$ 1,622,684 111,760 34,414
Balance, 31 March 2013	\$ 1,489,458	\$ 279,400	\$ 1,768,858
Exploration and evaluation costs			
Balance, 31 December 2012 Assaying Drilling Engineering and consulting Geological and field expenses Metallurgical Personnel Foreign currency translation Balance, 31 March 2013	\$ 24,037,981 19,719 676,414 98,956 40,200 18,185 112,553 509,801 25,513,809	\$ 5,207,163 - 28,267 - 1,197 110,435 5,347,062	\$ 29,245,144 19,719 676,414 127,223 40,200 18,185 113,750 620,236 30,860,871
Total	\$ 27,003,267	\$ 5,626,462	\$ 32,629,729

## Liquidity and capital resources

At March 31<sup>st</sup>, 2013, the Company's working capital, defined as current assets less current liabilities, was \$2,996,465 compared to a working capital of \$4,394,985 at December 31<sup>st</sup>, 2012. The Company has current liabilities of \$1,142,447 mainly related to current and prior exploration work. The Company has sufficient working capital to meet all of its contractual and statutory property payment and exploration commitments for the current year, although further financing will be required to undertake all planned exploration activities.

During the three month period ended March 31<sup>st</sup>, 2013, 148,145 warrants were exercised for gross proceeds of \$96,294.

## **Critical accounting estimates**

The preparation of condensed consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as at the date of the financial

statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates used in the preparation of these condensed consolidated financial statements include, but are not limited to, the valuation of warrants, the assumptions used in the accounting for share-based payments, the provision for income taxes and composition of deferred tax assets and liabilities, the expected economic lives of and the estimated future operating results and net cash flows from mining interests, the anticipated costs of reclamation and closure cost obligations, and the fair value measurement of certain financial instruments.

A detailed summary of all of the Company's significant accounting policies is included in Note 2 to the condensed consolidated financial statements for the three month period ended March 31<sup>st</sup> 2013.

## **Going Concern Assumption**

The recoverability of amounts shown for exploration and evaluation properties and related exploration and development expenditures is dependent upon the economic viability of recoverable reserves, the ability of the Company to obtain the necessary permits and financing to complete the development, and future profitable production or proceeds from the disposition thereof.

Currently, the Company does not have a source of revenue and is dependent on equity financings to fund its activities. The Company had positive working capital and cash balances at March 31<sup>st</sup>, 2013 and the Company endeavors to manage the cash position prudently through ongoing monitoring of current and future cash and working capital balances relative to planned activities. The available capital may not be sufficient to fund the Company's planned activities through 2013.

## Interests in Mining Properties and Exploration and Development Expenditures

In accordance with the Company's accounting policies, acquisition costs and exploration expenditures relating to exploration and evaluation properties are capitalized until the properties are brought into commercial production or disposed. Amortization will commence when a property is put into commercial production. As the Company does not currently have any properties in commercial production, no amortization has been recorded.

Mineral reserve and mineral resource estimates are not precise and also depend on statistical inferences drawn from drilling and other data, which may prove to be unreliable. Future production could differ from mineral resource estimates for the following reasons:

- mineralization or formation could be different from those predicted by drilling, sampling and similar tests:
- o the grade of mineral resources may vary from time to time and there can be no assurance that any particular level of recovery can be achieved from the mineral resources; and
- o declines in the market prices of contained minerals may render the mining of some or all of the Company's mineral resources uneconomic.

Any of these factors may result in impairment of the carrying amount of interests in mining properties or exploration and development expenditures.

## **Share Based Payments, Warrants and Compensation Options**

Directors, officers, employees and contractors are granted options to purchase common shares under the Company Stock Option Plan. This plan and its terms and outstanding balance are disclosed in Note 10d to the condensed consolidated financial statements at March 31<sup>st</sup>, 2013.

The Company recognizes an expense for option awards using the fair value method of accounting. The Company also records the fair value of warrants granted through private offerings or in lieu of

fees and compensation options granted using a fair-value estimate. Management estimates the fair value of stock options, warrants granted through private offerings or in lieu of fees, and compensation options using the Black-Scholes Option Pricing Model. The Black-Scholes Option Pricing Model, used by the Company to calculate fair values, as well as other accepted option valuation models, was developed to estimate fair value of freely tradable, fully transferable options and warrants, which may significantly differ from the Company's stock option awards or warrant grants. These models also require four highly subjective assumptions, including future stock price volatility and expected time until exercise, which greatly affect the calculated values. Accordingly, management believes that these models do not necessarily provide a reliable single measure of the fair value of the Company's stock option awards. The valuation models are used to provide a reasonable estimate of fair value given the variables used.

## **Restoration and Environmental Obligations**

Legal or constructive obligations associated with site restoration on the retirement of assets are recognized when they are incurred and when a reasonable estimate of the value of the obligation can be made. While, the Company has not commenced operations on its mining properties and the principal projects are in the exploration stage, certain exploration activities have occurred that have given rise to a constructive obligation related to the reclamation of the site for the Golden Summit Project. As such, the Company has recognized an environmental rehabilitation provision for the project. Due to the uncertainty around the settlement date and measurement of potential asset retirement obligations for the Company's projects, management considers the assumptions used to calculate the present value of such liabilities at each reporting period and updates the value recognized as required.

## **Contractual Commitments**

The Company is committed under exploration and evaluation property option agreements to pay cash, incur exploration expenditures and has future commitments related to payments required under a photocopier lease. See note 11 of the Company's condensed consolidated financial statements for the three month period ended March 31<sup>st</sup>, 2013 and the disclosures above under "Review of Exploration Projects".

## Off-balance sheet arrangements

The Company has no off-balance sheet arrangements.

### FINANCIAL INSTRUMENTS

The Company classifies all financial instruments as either available-for-sale, financial assets or liabilities at fair value through profit or loss ("FVTPL"), loans and receivables or other financial liabilities. Loans and receivables and other financial liabilities are measured at amortized cost. Available-for-sale instruments are measured at fair value with unrealized gains and losses recognized in other comprehensive income or loss. These amounts will be reclassified from shareholders' equity to net income when the investment is sold or when the investment is impaired and the impairment is considered less than temporary. Instruments classified as FVTPL are measured at fair value with unrealized gains and losses recognized on the statement of loss and comprehensive loss.

The Company has designated its cash as FVTPL, which is measured at fair value. Short term and long term investments in other companies are classified as available-for-sale, which is measured at fair value. Interest receivable is classified as receivables and measured at amortized cost. Trade payables and amounts due to related parties are classified as other financial liabilities which are measured at amortized cost.

## **Credit Risk**

Credit risk is the risk of an unexpected loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises primarily from the Company's cash and cash equivalents and amounts receivable. The Company manages its credit risk relating to cash and cash equivalents by dealing only with highly-rated Canadian financial institutions. As at March 31<sup>st</sup>, 2013, amounts receivable of \$41,045 (December 31<sup>st</sup>, 2012 - \$26,600) was comprised of Harmonized Sales Tax receivable of \$28,774 (December 31<sup>st</sup>, 2012 - \$26,142), interest receivable of \$4,376 (December 31<sup>st</sup>, 2012 - \$458) and other receivables of \$7,895 (December 31<sup>st</sup>, 2012 - \$Nil). As a result, credit risk is considered insignificant.

## **Liquidity Risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk by continuously monitoring actual and projected cash flows and matching the maturity profile of financial assets and liabilities. As the Company's financial instruments are substantially comprised of cash and cash equivalents, liquidity risk is considered insignificant.

## **Currency Risk**

The Company is exposed to currency risk on its acquisition and exploration expenditures on its US properties since it has to convert Canadian dollars raised through equity financing in Canada to US dollars. The Company's expenditures will be negatively impacted if the US dollar increases versus the Canadian dollar.

The majority of the Company's cash flows and financial assets and liabilities are denominated in Canadian dollars, which is the Company's functional and reporting currency. Foreign currency risk is limited to the portion of the Company's business transactions denominated in currencies other than the Canadian dollar. The Company has cash and cash equivalents held in US dollars.

The Company's objective in managing its foreign currency risk is to minimize its net exposures to foreign currency cash flows by holding most of its cash and cash equivalents in Canadian dollars. The Company monitors and forecasts the values of net foreign currency cash flow and balance sheet exposures and from time to time could authorize the use of derivative financial instruments such as forward foreign exchange contracts to economically hedge a portion of foreign currency fluctuations.

The following table provides an indication of the Company's foreign currency exposures during the periods ended March 31<sup>st</sup>, 2013 and December 31<sup>st</sup>, 2012:

	March 31 <sup>st</sup> 2013	December 31 <sup>st</sup> 2012
Cash and cash equivalents Trade payables	US\$1,580,332 US\$ 832,322	US\$1,175,418 US\$ 399,195

A 1% change in Canadian/US foreign exchange rate at period end would have changed the net loss of the Company, assuming that all other variables remained constant, by approximately \$7,480 for the period ended March 31<sup>st</sup>, 2013.

The Company has not, to the date of these condensed consolidated financial statements, entered into derivative instruments to offset the impact of foreign currency fluctuations.

## Interest Risk

The Company is not subject to interest risk.

## **Commodity Price Risk**

The Company is in the exploration stage and is not subject to commodity price risk.

### **OUTSTANDING SHARE DATA**

The Company is authorized to issue unlimited common shares without par value. As at May 14<sup>th</sup>, 2013, there were 74,171,029 outstanding common shares compared to 74,022,884 outstanding shares at December 31<sup>st</sup>, 2012.

The increase reflects the issuance of 148,145 shares for proceeds of \$96,294 on the exercise of warrants.

As at May 14<sup>th</sup>, 2013 there were 4,376,296 warrants outstanding.

	Number Outstanding on March 31 <sup>st</sup> , 2013	Price per Share	Expiry Date
	2,677,999	\$0.65	September 16 <sup>th</sup> ,2013 *
	1,630,977	\$0.65	February 2 <sup>nd</sup> ,2014
	17,320	\$0.65	February 2 <sup>nd</sup> ,2014
	50,000		February 15 <sup>th</sup> , 2014
Total	4,376,296		

\*On March 12<sup>th</sup>, 2013, the Company extended the expiry date for 2,677,999 warrants from March 16<sup>th</sup>, 2013 to September 16<sup>th</sup>, 2013. Of the 2,677,999 warrants, 298,000 warrants are held by directors and officers of the Company and are subject to the approval of shareholders of the Company, excluding the votes attached to common shares beneficially owned by holders of the insider warrants, at the Company's next Annual General Meeting. The exercise price of the warrants of \$0.65 per common share will remain the same.

Directors, officers, employees and contractors are granted options to purchase common shares under the Company Stock Option Plan. This plan and its terms and outstanding balance are disclosed in Note 10d to the condensed consolidated financial statements at March 31<sup>st</sup>, 2013.

## **RELATED PARTY TRANSACTIONS**

The Company considers the President and Chief Executive Officer, Chief Financial Officer, Vice-President of Exploration and Development, Corporate Secretary, directors and any companies controlled by these parties to be key management personnel.

The related party transactions during the three month period ended March 31<sup>st</sup>, 2013, which occurred in the normal course of operations and were measured at the exchange amount (the amount of consideration established and agreed to by the related parties), were as follows:

A summary of key management compensation is as follows:

	March 31 <sup>st</sup> , 2013 \$	March 31 <sup>st</sup> , 2012 \$
Short-term benefits Share-based payments	\$ 114,300 -	\$ 116,113 -
_ Total	\$ 114,300	\$ 116,113

## DISCLOSURE CONTROLS AND INTERNAL CONTROLS OVER FINANCIAL REPORTING

The Company has established disclosure controls and procedures to ensure that information disclosed in this MD&A and the related condensed consolidated financial statements was properly recorded, processed, summarized and reported to the Company's Board and Audit Committee. The Company's CEO and CFO have evaluated and are satisfied with the effectiveness of these disclosure controls and procedures for the three month period ending March 31<sup>st</sup>, 2013.

The CEO and CFO acknowledge responsibility for the design of internal control over financial reporting (ICFR), and confirm that there were no changes in these controls that occurred during the most recent three month period ended March 31<sup>st</sup>, 2013 which materially affected, or are reasonably likely to materially affect the Company's ICFR.

## **RISKS AND UNCERTAINTIES**

The Company believes that the following items represent significant areas for consideration.

## **Cash Flows and Additional Funding Requirements**

The Company has limited financial resources, no sources of operating cash flows and no assurances that sufficient funding will be available.

## Industry

The Company is engaged in the exploration of mineral properties, an inherently risky business. There is no assurance that funds spent on the exploration and development of a mineral deposit will result in the discovery of an economic ore body. Most exploration projects do not result in the discovery of commercially mineable ore deposits.

## **Commodity Prices**

The success of the Company's operations will be dependent in part upon the market price of mineral commodities. Mineral prices fluctuate widely and are affected by numerous factors beyond

the control of the Company. The prices of mineral commodities have fluctuated widely in recent years. Current and future price declines could cause commercial production to be impracticable.

## Competition

The mining industry is intensely competitive in all of its phases, and the Company competes with many companies possessing greater financial resources and technical facilities than itself with respect to the discovery and acquisition of interests in mineral properties, the recruitment and retention of qualified employees and other persons to carry out its mineral exploration activities. Competition in the mining industry could adversely affect the Company's prospects for mineral exploration in the future.

## **Foreign Political Risk**

The Company's material property interests are currently located in the United States. A significant portion of the Company's interests are exposed to various degrees of political, economic and other risks and uncertainties. The Company's operations and investments may be affected by local political and economic developments, including expropriation, nationalization, invalidation of government orders, permits or agreements pertaining to property rights, political unrest, labour disputes, limitations on repatriation of earnings, limitations on mineral exports, limitations on foreign ownership, inability to obtain or delays in obtaining necessary mining permits, opposition to mining from local, environmental or other non-governmental organizations, government participation, royalties, duties, rates of exchange, high rates of inflation, price controls, exchange controls, currency fluctuations, taxation and changes in laws, regulations or policies as well as by laws and policies of Canada affecting foreign trade, investment and taxation.

## **Government Laws, Regulation & Permitting**

Mining and exploration activities of the Company are subject to both domestic and foreign laws and regulations governing prospecting, development, production, taxes, labour standards, occupational health, mine safety, waste disposal, toxic substances, the environment and other matters. Although the Company believes that all exploration activities are currently carried out in accordance with all applicable rules and regulations, no assurance can be given that new rules and regulations will not be enacted or that existing rules and regulations will not be applied in a manner which could limit or curtail production or development. Amendments to current laws and regulations governing the operations and activities of the Company or more stringent implementation thereof could have a substantial adverse impact on the Company.

The operations of the Company will require licenses and permits from various governmental authorities to carry out exploration and development at its projects. There can be no assurance that the Company will be able to obtain the necessary licences and permits on acceptable terms, in a timely manner or at all. Any failure to comply with permits and applicable laws and regulations, even if inadvertent, could result in the interruption or closure of operations or material fines, penalties or other liabilities.

## **Title to Properties**

Acquisition of rights to the exploration and evaluation properties is a very detailed and time-consuming process. Title to, and the area of, exploration and evaluation properties may be disputed. Although the Company has made reasonable efforts to investigate the title to all of the properties for which it holds mineral leases or licenses or in respect of which it has a right to earn an interest, the Company cannot give an assurance that title to such properties will not be challenged or impugned.

The Company has the right to earn an interest in certain of its properties. To earn its interest in each property, the Company is required to make certain cash payments and incur certain

exploration expenditures. If the Company fails to make these payments and incur such expenditures, the Company may lose its right to such properties and forfeit any funds expended to such time.

#### **Estimates of Mineral Resources**

The mineral resource estimates used by the Company are estimates only and no assurance can be given that any particular level of recovery of minerals will in fact be realized or that an identified resource will ever qualify as a commercially mineable (or viable) deposit which can be legally or commercially exploited. In addition, the grade of mineralization ultimately mined may differ from that indicated by drilling results and such differences could be material.

## **Key Management**

The success of the Company will be largely dependent upon the performance of its key officers, consultants and employees. Locating mineral deposits depends on a number of factors, not the least of which is the technical skill of the exploration personnel involved. The success of the Company is largely dependent on the performance of its key individuals. Failure to retain key individuals or to attract or retain additional key individuals with necessary skills could have a materially adverse impact upon the Company's success.

## **Volatility of Share Price**

Market prices for shares of early stage companies are often volatile. Factors such as announcements of mineral discoveries, financial results, and other factors could have a significant effect on the price of the Company's shares.

## **Foreign Currency Risk**

A substantial portion of the Company's expenses and payables are now, and are expected to continue to be incurred in United States currency. The Company's business will be subject to risks typical of an international business including, but not limited to, differing tax structures, regulations and restrictions and general foreign exchange rate volatility. Fluctuations in the exchange rate between the Canadian dollar and United States dollar may have a material effect on the Company's business, financial condition and results of operations and could result in downward price pressure for the Company's products in or losses from currency exchange rate fluctuations. The Company does not actively hedge against foreign currency fluctuations.

### **Conflict of Interest**

Some of the Company's directors and officers are directors and officers of other natural resource or mining-related companies. These associations may give rise from time to time to conflicts of interest which will be subject to the procedures and remedies under the *Business Corporation Act* (*British Columbia*). As a result of any such conflict, the Company may miss the opportunity to participate in certain transactions.

## **OUTLOOK**

As at May 14<sup>th</sup>, 2013, the Company has approximately \$2,700,000 in cash.

Drilling at Golden Summit has currently ceased for Spring breakup and further exploration will be dependent on market conditions and further financings. A total of 11,392 feet (3,472 metres) were drilled during the winter program. Assays for the first five holes have been reported to date. The Dolphin/Cleary Hill deposit remains open to the west, east and to depth and covers an area of 300 metres by 1.5 km; however, the entire Golden Summit project area covers an 11,400 acre area and hosts numerous other significant exploration targets also with the potential for additional bulk

tonnage mineralization. The program for 2013 is expected to include additional diamond core drilling, metallurgical testing and the initiation of a Preliminary Economic Assessment. Freegold is also working towards completion of an updated NI 43-101 compliant resource based on the oxide component of the current resource inventory. The oxide cap at Golden Summit is contained largely to the upper 200 feet (60 metres) project wide.

On March 13<sup>th</sup>, 2013 the Company announced an updated NI 43-101 compliant resource for its Vinasale Project. The 2013 Vinasale exploration program is currently under consideration. Mineralization in the Central Zone remains open to the south and there maybe the potential for additional resource definition in the North East Zone.

This discussion contains certain forward-looking information. This forward-looking information includes, or may be based upon, estimates, forecasts, and statements as to management's expectations with respect to, among other things, the size and quality of the Company's mineral resources, progress in development of mineral properties, amount and quality of metal products recoverable from the Company's mineral resources. Forward-looking information is based on the opinions and estimates of management at the date the information is given, and is subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking information. These factors include the inherent risks involved in the exploration and development of mineral properties, the uncertainties involved in interpreting drilling results and other geological data, fluctuating metal prices, the possibility of unanticipated costs and expenses, uncertainties relating to the availability and costs of financing needed in the future and uncertainties related to metal recoveries. Readers are cautioned to not place undue reliance on forward-looking information because it is possible that predictions, forecasts, projections and other forms of forward-looking information will not be achieved by the Company. These forward-looking statements are made as of the date hereof and the Company assumes no responsibility to update them or revise them to reflect new events or circumstances, except as required by law.

## FREEGOLD VENTURES LIMITED

(An Exploration Stage Company)

## CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

31 MARCH 2013 and 2012

## MANAGEMENT'S COMMENTS ON UNAUDITED CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

## NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed consolidated interim financial statements of Freegold Ventures Limited (the "Company") have been prepared by and are the responsibility of the Company's management. The unaudited condensed consolidated interim financial statements are prepared in accordance with International Financial Reporting Standards and reflect management's best estimates and judgements based on information currently available.

The Company's independent auditor has not performed a review of these condensed consolidated interim financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

## **Notes to Condensed Consolidated Financial Statements**

31 March 2013 and 2012

Canadian Funds

## 1. Nature and Continuance of Operations

Freegold Ventures Limited (the "Company") is in the process of acquiring, exploring and developing precious metal exploration and evaluation properties. The Company will attempt to bring the properties to production, structure joint ventures with others, option or lease properties to third parties or sell the properties outright. The Company has not determined whether these properties contain ore reserves that are economically recoverable and the Company is considered to be in the exploration stage. The recoverability of the amounts expended by the Company on acquiring and exploring exploration and evaluation properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to complete the acquisition and/or development of the properties and upon future profitable production.

The head office, principal address and registered records office of the Company is Suite 888 – 700 West Georgia Street, Vancouver, British Columbia, Canada, V7Y 1G5.

The Company's condensed consolidated financial statements as at 31 March 2013 and for the year then ended have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company has a total comprehensive loss of \$44,377 for the three month period ended 31 March 2013 (31 March 2012 – loss \$976,818) and has working capital of \$2,996,465 at 31 March 2013 (31 December 2012 – \$4,394,985).

The Company had cash and cash equivalents of \$3,818,261 at 31 March 2013 (31 December 2012 - \$4,750,282), but management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. If the Company is unable to raise additional capital in the immediate future, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favourable terms and/or pursue other remedial measures or cease operations. These condensed consolidated financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

## 2. Significant Accounting Policies

The condensed consolidated financial statements of the Company and its subsidiaries (the "Group") have been prepared in accordance with International Accounting Standards ("IAS") 34, "Interim Financial Reporting" using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

These condensed interim financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's annual financial statements for the year ended 31 December 2012.

## a) Consolidation

These condensed consolidated financial statements include the accounts of the Company's wholly owned subsidiaries, Free Gold Recovery, USA, Freegold Ventures Limited, USA, Ican Minerals, Inc., Dolphin Gold, Inc., Grizzly Bear Gold Inc. and McGrath Gold Inc. (the "Group"). All subsidiaries are US corporations which are involved in exploration and evaluation of properties. Inter-company balances are eliminated upon consolidation.

## **Notes to Condensed Consolidated Financial Statements**

31 March 2013 and 2012

Canadian Funds

## b) Significant Accounting Judgments, Estimates and Assumptions

The preparation of the Company's condensed consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the condensed consolidated financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Areas requiring a significant degree of estimation and judgment relate to the recoverability of the carrying value of exploration and evaluation assets, fair value measurements for financial instruments and share-based payments, the recognition and valuation of provisions for restoration and environmental liabilities, the recoverability and measurement of deferred tax assets and liabilities, and ability to continue as a going concern. Actual results may differ from those estimates and judgments.

## c) New and Revised Accounting Standards and Interpretations Not Yet Adopted

At the date of authorization of these condensed consolidated financial statements, the IASB and IFRIC have issued the following new and revised standards, amendments and interpretations which are not yet effective:

- IFRS 9 'Financial Instruments: Classification and Measurement' is a new financial instruments standard effective for annual periods beginning on or after 1 January 2015 that replaces IAS 39 and IFRIC 9 for classification and measurement of financial assets and financial liabilities.
- IFRS 10 'Consolidated Financial Statements' is a new standard effective for annual periods beginning on or after 1 January 2013 that replaces consolidation requirements in IAS 27 (as amended in 2008) and Standing Interpretations Committee ("SIC") -12.
- IFRS 11 'Joint Arrangements' is a new standard effective for annual periods beginning on or after 1 January 2013 that replaces IAS 31 and SIC-13.
- IFRS 12 'Disclosure of Interests in Other Entities' is a new standard effective for annual periods beginning on or after 1 January 2013 that replaces disclosure requirements in IAS 27 (as amended in 2008), IAS 28 (as revised in 2003) and IAS 31.
- IFRS 13 'Fair Value Measurement' is a new standard effective for annual periods beginning on or after 1 January 2013 that replaces fair value measurement guidance in other IFRSs.
- IAS 1 (Amendment) 'Presentation of Financial Statements' is effective for annual periods beginning on or after 1 July 2012 and includes amendments regarding presentation of items of other comprehensive income.
- IAS 19 (Amendment) 'Employee Benefits' is effective for annual periods beginning on or after 1 January 2013 and revises recognition and measurement of post-employment benefits.

(An Exploration Stage Company)

## **Notes to Condensed Consolidated Financial Statements**

### 31 March 2013 and 2012

Canadian Funds

- IAS 27 (Amendment) 'Separate Financial Statements' is effective for annual periods beginning on or after 1 January 2013 that prescribes the accounting and disclosure requirements for investments in subsidiaries, joint ventures and associates when an entity prepares separate financial statements.
- IAS 28 (Amendment) 'Investments in Associates and Joint Ventures' is effective for annual periods beginning on or after 1 January 2013 that prescribes the accounting for investments in associates and sets out the requirements for the application of the equity method when accounting for investments in associates and joint ventures.
- IFRIC 20 'Stripping Costs in the Production Phase of a Surface Mine' is a new interpretation effective for annual periods beginning on or after 1 January 2013 that prescribes the accounting for stripping costs in the production phase of a surface mine.

The Company has not early adopted these standards, amendments and interpretations and anticipates that the application of these standards, amendments and interpretations will not have a material impact on the financial position and financial performance of the Company.

## 3. Approval

These condensed consolidated financial statements were approved and authorized for issue by the Audit Committee of the Board of Directors on 13 May 2013.

## 4. Assets Held For Sale

	31	March 2013	31 December 2012
Opening assets held for sale Additions	\$	194,058 \$	254,625 -
Dispositions Write-down		-	(47,225)

## **Notes to Condensed Consolidated Financial Statements**

31 March 2013 and 2012

Canadian Funds

## a) Golden Summit Property, Alaska, USA

## Fairbanks Exploration Inc.

By various agreements dated from 1 December 1992 to 9 May 1997, the Company acquired from Fairbanks Exploration Inc. ("FEI") certain mineral claims in the Fairbanks Mining District of Alaska known as the Golden Summit Property, subject to a 7% working interest held in trust for FEI by the Company on certain mineral claims. The property is controlled by the Company through long-term lease agreements or outright claim ownership. As consideration, the Company issued 20,833 shares and expended US\$1,767,000 on the property before 2000 to FEI. The Company is also required to make all underlying lease payments.

The Company will fund 100% of the project until commercial production is achieved at which point FEI will be required to contribute 7% of any approved budget. The property is subject to a 2% Net Smelter Royalty ("NSR") to FEI, unless otherwise noted. The Company has a 30 day right of first refusal in the event that the 7% working interest of FEI or the NSR is to be sold. The Company can also purchase the NSR at any time following commercial production, based on its net present value as determined by mineable reserves.

## (i) Keystone Claims

By an agreement dated 17 May 1992, the Company entered into a lease with Keystone whereby the Company agreed to make advance royalty payments of US\$15,000 per year. In May 2000, the agreement was renegotiated and on 15 October 2000, a \$50,000 signing bonus was paid. On 30 November 2001, the Company restructured the advance royalty payments as follows:

		US Funds	
1992 – 1998 (US\$15,000 per year) 2000	\$ \$	105,000 50,000	(paid) (\$25,000 paid in cash and \$25,000 with 9,816 treasury shares issued)
2001 - 2006 (US\$50,000 per year) 2007 2008	\$ \$ \$	300,000 150,000 150,000	(paid) (paid) (paid \$75,000 in 2008 with the remaining \$75,000 paid in 2009, subject to a payment extension)
2009 2010 2011 2012 2013 – 2019 (US\$150,000 per year)	\$ \$ \$ \$	150,000 150,000 150,000 150,000 1,050,000	(paid) (paid) (paid) (paid)

The property is subject to a 3% NSR.

In 2011, the Company negotiated an extension of the lease. As long as there is either permitting, development mining or processing being conducted on a continuous basis or advance royalties being paid, the lease shall be renewable for successive 10 year terms.

(An Exploration Stage Company)

## **Notes to Condensed Consolidated Financial Statements**

31 March 2013 and 2012

Canadian Funds

## (ii) Newsboy Claims

By lease agreement dated 28 February 1986 and amended 26 March 1996, the Company assumed the obligation to make advance royalty payments of US\$2,500 per year until 1996 (paid) and US\$5,000 per year until 2006 (paid). During 2006, the Company renewed the existing lease term for an additional 5 years on the same terms and conditions.

On 12 October 2012, the Company amended the lease agreement and the lease term was extended for a five year term, from 1 March 2011 to 29 February 2016. The minimum royalty payable under the amended lease is US\$12,000 per year for the term of the lease. These payments are current. In addition, the Company will have the option to further extend the lease for a term of an additional 5 years by making a one-time payment of US\$50,000. The claims are subject to a 4% NSR. The Company has the option to purchase the NSR for the greater of the current value or US\$1,000,000 less all advance royalty payments made.

## (iii) Tolovana Claims

In May 2004, the Company entered into an agreement with a third party (the "Seller") whereby the Seller transferred 100% of the rights via Quit Claim Deed to a 20-year lease on the Tolovana Gold Property in Alaska.

Under the terms of the agreement, the Company assumed all of the Seller's obligations under the lease, which include making annual payments of \$1,000 per month for the first 23 months increasing to \$1,250 per month for the 24th to the 48th months and increasing to \$1,500 after the 49th month and for the duration of the lease. These payments are current.

In addition, the Company made a cash payment to the seller of US\$7,500 on signing and issued 66,667 shares on regulatory approval. An additional 33,333 shares were to be issued within 30 days of a minimum 200,000 ounce mineral resource being calculated on the property if the resource is established in five years or less from the date of the agreement. No resource was calculated during the prescribed time frame so these shares were not issued.

The property is subject to a sliding scale NSR as follows: 1.5% NSR if gold is below US\$300 per ounce, 2.0% NSR in the event the price of gold is between US\$300 to US\$400, and 3.0% NSR in the event that the price of gold is above US\$400.

## (iv) Green Claims

On 16 December 2010, the Company entered into a long-term lease agreement with Christina Mining Company, LLC to acquire certain mineral claims in the Fairbanks Mining District of Alaska known as the Green Property. The claims are subject to a 3% NSR. The Company is required to make annual cash payments and exploration expenditures as follows:

	Payments	Exploration Expenditures
1 December 2010	US\$100,000 (paid)	-
1 December 2011	US\$100,000 (paid)	US\$250,000 (incurred)
1 December 2012	US\$100,000 (paid)	US\$500,000 (incurred)
1 December 2013	US\$100,000	US\$750,000
1 December 2014	US\$100,000	US\$1,000,000
1 December 2015 to 2019	US\$100,000 per year	-
1 December 2020 to 2029	US\$200,000 per year	-
Total	US\$3,000,000	US\$2,500,000

## (v) Chatham Claims

On 11 July 2011, the Company entered into a four year lease agreement to acquire certain mineral claims in the Fairbanks Mining District of Alaska known as the Chatham Property. The claims are subject to a 2% NSR. The Company is required to make annual cash payments and exploration expenditures as follows:

	Payments	Exploration Expenditures
Execution of agreement	US\$20,000 (paid)	-
11 July 2012	US\$30,000 (paid)	US\$50,000 (incurred)
11 July 2013	US\$40,000	US\$50,000
11 July 2014	US\$50,000	US\$50,000
11 July 2015	-	US\$50,000
Total	US\$140,000	US\$200,000

The Company has the option to purchase the property for US\$750,000.

The Company also has the option to purchase one-half of the NSR representing one percent for US\$750,000.

(An Exploration Stage Company)

Canadian Funds

## (vi) Alaska Mental Health Trust Property

By lease agreement effective 1 June 2012, the Company entered into a new mining lease over certain mineral claims in the Fairbanks Mining District of Alaska known as the Alaska Mental Health Trust Property. The property will be controlled by the Company through a three year lease agreement and may be extended for two extensions of three years. The Company is required to make annual cash payments and exploration expenditures as follows:

	Payments	Exploration Expenditures
Execution of agreement	US\$25,000 (paid)	-
Years 1-3	US\$2,000 per year	US\$25,000 per year
Years 4-6	US\$3,000 per year	US\$50,000 per year
Years 7-9	US\$4,000 per year	US\$75,000 per year
Total	US\$52,000	US\$450,000

The claims will be subject to the following NSR:

Price of Gold (per ounce)	Net Royalty
US\$500 or below	1.0%
US\$500.01 - US\$700.00	2.0%
US\$700.01 - US\$900.00	3.0%
US\$900.01 - US\$1,200.00	3.5%
above US\$1,200.00	4.5%

In February 2013, the Company entered into an agreement to amend the terms of the lease to reflect an increase in the size of the lease. As a result, the work commitment schedule will be modified to increase the exploration expenditure requirements for years 1 to 3 to US\$125 per acre per year, years 4 to 6 to US\$235 per acre per year and years 7 to 9 to US\$355 per acre per year.

## b) Rob Property, Alaska, USA

By agreement dated 9 July 2002, the Company has the option to earn a 100% interest in a 20-year lease on certain mineral claims located in the Good Paster Mining District, Alaska, known as the Rob Property.

As consideration, the Company was required to make cash payments of US\$80,000 (paid) for an underlying agreement with the vendor.

In addition, the Company paid US\$29,000 and issued 166,667 shares. The Company is also required to expend a total of US\$1,000,000 in exploration expenditures on the property prior to 31 December 2008 (completed).

During a prior year, the Company reached the required US\$1,000,000 level of cumulative expenditures on the property and issued an additional 83,333 shares of the Company valued at \$305,000. In addition, the vendor retains a 1% NSR which the Company may purchase for US\$1,000,000.

(An Exploration Stage Company)

#### **Notes to Condensed Consolidated Financial Statements**

#### 31 March 2013 and 2012

Canadian Funds

The underlying lease holder shall retain a NSR, which shall vary according to the London gold price for the preceding six-month period as follows: 1% for gold prices less than US\$300 per ounce, 1.5% for gold prices between US\$301 and US\$350, and 2% for gold prices greater than US\$350. The NSR may be purchased for US\$500,000 for each percentage point. An undivided 100% interest in the property may be purchased for US\$1,500,000.

Commencing 1 December 2008, annual advance royalty payments must be made to the vendor depending on the average gold price for the preceding year as follows:

Gold Price Per Ounce	Annual Royalty Payment
Less than US\$350	US\$30,000
US\$350 to US\$400	US\$40,000
More than US\$400	US\$50,000

These payments are current.

During a prior year, the Company staked a further 141 State of Alaska mining claims covering 15,360 acres adjacent to the property. These new claims bring the total property land holdings to 19,600 acres. The staked claims are 100% owned and not subject to any royalties.

During the year ended 31 December 2012, the Company wrote off \$4,085,000 as no exploration program is currently being planned on this property.

#### c) Vinasale Property, Alaska, USA

By agreement dated 28 February 2007 and as amended on 18 January 2010, the Company entered into a mineral exploration agreement with an option to lease from Doyon Limited ("Doyon"), an Alaskan Native Corporation on the Vinasale property in central Alaska. The Company must make annual cash payments and incur exploration expenditures as follows:

Option Year Commencing	Payments	Exploration Expenditures
28 February 2007	US\$50,000 (Paid)	US\$300,000 (incurred)
1 February 2008	US\$70,000 (Paid)	US\$700,000*
1 February 2009	US\$75,000 (Paid)	US\$1,000,000**
1 February 2010	US\$80,000 (Paid)	US\$1,500,000 (incurred)
1 February 2011	US\$85,000 (Paid)	US\$1,500,000 (incurred)
Total	US\$360,000	US\$5,000,000

On 20 January 2012, the Company paid US\$100,000 to extend the agreement by one year and was required to incur an additional US\$1,500,000 (incurred) in exploration expenditures.

On 30 January 2013, the Company paid US\$70,000 to extend the agreement by one year and is required to incur an additional US\$1,500,000 in exploration expenditures.

<sup>\*</sup> During 2008, the Company requested that Doyon consider deferring the remaining 2008 expenditures to 2009, 2010 and 2011 in exchange for an additional contribution of US\$20,000 to the scholarship fund and Doyon agreed to such request.

(An Exploration Stage Company)

#### **Notes to Condensed Consolidated Financial Statements**

31 March 2013 and 2012

Canadian Funds

\*\* By amendment dated 18 January 2010, Doyon agreed to waive the 2009 exploration expenditures. As consideration, the Company agreed to place US\$300,000 in an escrow account by 15 April 2010. The funds were released upon mobilization of a drill rig to the property in July 2010.

## d) Union Bay Property, Alaska, USA

The Company acquired certain mineral claims known as the Union Bay Property, in Alaska, USA, by way of staking.

By agreement dated 1 October 2002 and amended 2 April 2003, the Company granted to Pacific North West Capital Corp. ("PFN"), a company that previously had certain directors in common, an option to earn a 70% interest in the property by purchasing a private placement of \$165,000 (2002) and making cash payments of \$100,000 (received), issuing 60,000 shares (received) and incurring exploration expenditures of \$1,000,000 (completed).

PFN vested with a 50% interest on 1 July 2006 and accordingly issued 253,586 shares pursuant to the agreement. Following vesting, PFN had the right to elect within 45 days to increase its interest to 60% by completing a feasibility study within 12 months of having vested. This election was not made.

By Memorandum of Agreement dated 4 May 2007, the Company and PFN confirmed their 50:50 interest in the property.

During the year ended 31 December 2012, the Company wrote off \$27,605 as no exploration program is currently being planned on this property.

## 7. Trade Payables

During the prior year, the Company wrote off trade payables in the amount of \$Nil (31 December 2011 - \$27,587). Management does not consider that these amounts are payable although there is no assurance that a formal claim will not be made against the Company for some or all of these balances in the future.

During a prior year, the Company entered into a debt settlement agreement with one of its vendors. Under the terms of the agreement, the amount owing to the vendor was to be repaid in cash over three years and a portion was to be repaid in shares (issued). The cash portion will bear interest at 6%. The remaining amount owing and accrued interest has been recorded as trade payables.

During a prior year, the Company entered into an agreement with one of its vendors to repay the amount payable over five years. The portion of this amount that will be repaid in the fifth year (2013) has been recorded as trade payables.

#### 8. Related Party Balances and Transactions

A summary of key management compensation is as follows:

	31 March 2013	31 March 2012
Short-term benefits Share-based payments	\$ 114,300 \$	116,113
Total	\$ 114,300 \$	116,113

A summary of amounts due to related parties is as follows:

	31 March 2013	31 December 2012
President and Chief Executive Officer Vice President, Exploration and	\$ -	\$ 27,940
Development	-	27,940
Total	\$ -	\$ 55,880

Key management personnel includes individuals having authority and responsibility for planning, directing and controlling the activities of the Company, including the directors, and any companies controlled by these parties.

These amounts were incurred in the ordinary course of business, are non-interest bearing, unsecured and due on demand unless otherwise noted. The above transactions are measured at fair value, which has been determined by negotiations amongst the parties.

(An Exploration Stage Company)

#### Notes to Condensed Consolidated Financial Statements

#### 31 March 2013 and 2012

Canadian Funds

#### 9. Restoration and Environmental Obligations

The Company's restoration and environmental obligations consist of reclamation and closure costs for the Golden Summit Property (*Note 5a*). The present value of the estimated obligations relating to properties is \$452,061 (31 December 2012 - \$438,197) using discount rates at which cash flows have been discounted by 4.25%. Significant reclamation and closure cost activities include, land rehabilitation, demolition of field camps, ongoing care and maintenance and other costs.

The undiscounted reclamation and closure cost obligation at 31 March 2013 is \$497,450 (US\$500,000) (31 December 2012 - \$497,450 (US\$500,000)) and the cash outflows are expected to occur in 2015.

Movements in the reclamation and closure cost balance during the year are as follows:

	31 March 2013	31 December 2012
Balance, beginning of year	\$ 438,197	\$ 429,375
Accretion	4,567	18,238
Revision of Golden Summit Property reclamation costs (Note 5) Foreign currency translation	- 9,297	- (9,416)
Balance, end of period	\$ 452,061	\$ 438,197

## 10. Share Capital

The Company has authorized an unlimited number of common shares with no par value. At 31 March 2013, the Company had 74,171,029 common shares outstanding (31 December 2012 – 74,022,884).

#### a) Share Issuances and Other

On 2 August 2012, the Company closed a non-brokered private placement of 3,411,957 units at \$0.56 per unit for proceeds of \$1,910,696. Each unit consists of one common share and one half non-transferable share purchase warrant. 1,655,977 warrants were issued to purchase one additional common share at a price of \$0.65 per share exercisable until 2 February 2014 and 50,000 warrants were issued to purchase one additional common share at a price of \$0.65 per share exercisable until 15 February 2014. 115,465 broker warrants were issued that entitle the holder to purchase one additional common share at a price of \$0.65 per share exercisable until 2 February 2014 (Note 10c).

(An Exploration Stage Company)

#### **Notes to Condensed Consolidated Financial Statements**

31 March 2013 and 2012

Canadian Funds

On 22 August 2011, the Company closed a non-brokered private placement of 7,218,536 units at \$0.55 per unit for proceeds of \$3,970,195. Each unit consists of one common share and one half non-transferable share purchase warrant. Each warrant entitles the holder to purchase one additional common share at a price of \$0.75 per share exercisable until 22 August 2012 (Note 10c).

On 16 March 2011, the Company closed a non-brokered private placement of 4,583,331 units at \$0.48 per unit for proceeds of \$2,199,999. Each unit consists of one common share and one non-transferable share purchase warrant. Each warrant entitles the holder to purchase one additional common share at a price of \$0.59 per share exercisable until 16 March 2012 and at a price of \$0.65 per share exercisable until 16 March 2013 (*Note 10c*).

## b) Exercise of Warrants and Options

- i) During the period, a total of 148,145 (31 March 2012 1,063,678) warrants were exercised for gross proceeds of \$96,294 (31 March 2012 \$629,861).
- ii) During the period, a total of Nil (31 March 2012 Nil) options were exercised for gross proceeds of \$Nil (31 March 2012 \$Nil).
- iii) During the period, 186,667 share purchase options with an exercise price of \$8.52 per common share expired.

#### c) Share Purchase Warrants

As at 31 March 2013, the following share purchase warrants are outstanding:

	Number	Price per Share	Expiry Date
	2,677,999	\$0.65	16 September 2013 **
	1,630,977	\$0.65	2 February 2014 *
	17,320	\$0.65	2 February 2014 *
	50,000	\$0.65	15 February 2014 *
Total	4,376,296		

<sup>\*</sup> During the prior year, 1,821,442 share purchase warrants having a fair value of \$396,546 were issued relating to private placements. 1,655,977 warrants were issued to purchase one additional common share at a price of \$0.65 per share exercisable until 2 February 2014 and 50,000 warrants were issued to purchase one additional common share at a price of \$0.65 per share exercisable until 15 February 2014. 115,465 broker warrants were issued that entitle the holder to purchase one additional common share at a price of \$0.65 per share exercisable until 2 February 2014 (Note 10a).

During a prior year, 3,609,268 share purchase warrants having a fair value of \$1,107,275 were issued relating to private placements. Each warrant entitled the holder to purchase one additional common share at a price of \$0.75 per share exercisable until 22 August 2012 (*Note 10a*). Effective 12 June 2012, the exercise price of 3,567,782 share purchase warrants were reduced from \$0.75 to \$0.58 resulting in an incremental fair value of \$156,802. This amount is shown as a financing cost. 187,181 of these warrants were exercised and 3,380,601 of these warrants expired.

<sup>\*\*</sup> During a prior year, 4,583,331 share purchase warrants having a fair value of \$859,060 were issued relating to private placements. Each warrant entitles the holder to purchase one additional common share at a price of \$0.59 per share exercisable until 16 March 2012 and at a price of \$0.65 per share exercisable from 17 March 2012 until 16 March 2013. Effective 16 March 2013, the exercise date of 2,677,999 share purchase warrants was extended from 16 March 2013 to 16 September 2013 resulting in an incremental fair value of \$276,316. This amount is shown as a financing cost. 298,000 of these warrants are held by directors and officers of the Company and are subject to the approval of shareholders of the Company excluding the votes attached to common shares beneficially owned by holder of the insider warrants, at the Company's next Annual and Special General Meeting. The exercise price of the warrants of \$0.65 per common share will remain the same.

Canadian Funds

#### d) Share Purchase Options

The Company has established a new stock option plan (the "2012 Stock Option Plan) whereby the Board of Directors (the "Board"), may from time to time, grant options to directors, officers, employees or consultants. At the Company's Annual and Special Meeting held on 29 June 2012, shareholders approved a resolution which reserves up to 10% of the issued and outstanding shares from time to time (including existing stock options), as a "rolling stock option plan". Stock options may be granted under the 2012 Stock Option Plan with an exercise period of up to ten (10) years from the date of grant or such lesser period as determined by the Board, subject to a short extension in the case of a Company imposed blackout period. Any stock options granted under the 2012 Stock Option Plan will not be subject to any vesting schedule, unless otherwise determined by the Board. The exercise price of an option will not be less than the closing price of the common shares on the day prior to grant.

A summary of the Company's options at 31 March 2013 and the changes for the year are as follows:

Number					Number	Number		
Outstanding					Outstanding	Exercisable	Exercise	
31 December					31 March	31 March	Price	
2012	Granted	Exercised	Cancelled	Expired	2013	2013	Per Share	Expiry Date
186,667	-	-	-	(186,667)	-	-	\$ 8.52	21 February 2013
604,167	-	-	-	-	604,167	604,167	\$ 0.48	26 February 2015
800,000	-	-	-	-	800,000	800,000	\$ 0.50	29 October 2015
2,035,000	-	-	-	-	2,035,000	2,035,000	\$ 0.87	10 May 2016
1,585,000	-	-	-	-	1,585,000	1,585,000	\$ 0.65	20 October 2016
20,000	-	-	-	-	20,000	20,000	\$ 0.75	20 February 2017
200,000	-	-	-	-	200,000	50,000	\$ 0.92	12 November 2017
5,430,834	-	-	-	(186,667)	5,244,167	5,094,167		

186,667 share purchase options with an exercise price of \$8.52 per common share expired on 21 February 2013.

During the prior year, the Company granted the following options to an employee of the Company and recognized the 2012 vested amount as follows:

				2012
		Exercise	Fair	Vested
Grant Date	Granted	Price	Value	Amount
20 February 2012	20.000	\$0.75	\$12.176	\$12,176

The total estimated fair value of the 20,000 options is \$12,176 and was recorded in the Company accounts as share-based payments expense. The offsetting entry was to stock options reserve.

During the prior year, the Company granted the following options to a consultant of the Company which vest on the following dates:

			2013
		Number of	Vested
Vesting Date	Exercise Price	options	Amount
12 February 2013	\$0.92	50,000	\$25,711
12 May 2013	\$0.92	50,000	-
12 August 2013	\$0.92	50,000	-
12 November 2013	\$0.92	50,000	-
Total		200,000	\$25,711

(An Exploration Stage Company)

#### Notes to Condensed Consolidated Financial Statements

#### 31 March 2013 and 2012

Canadian Funds

The total estimated fair value of the options is recorded in the Company accounts as share-based payments expense calculated on the vesting date. The offsetting entry will be to stock options reserve.

The total estimated fair value of the vested 50,000 (2012 - 20,000) options is \$25,711 (2012 - \$12,176) and was recorded in the Company accounts as share-based payments expense. The offsetting entry was to stock options reserve.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes Option-Pricing Model with the following weighted average assumptions:

	2013	2012
Expected dividend yield	0.00%	0.00%
Expected stock price volatility	113.24%	115.80%
Risk-free interest rate	1.39%	1.49%
Expected life of options	4.75 years	5.00 years

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore, the existing models do not necessarily provide a reliable single measure of the fair value of the Company's stock options.

#### e) Shareholders Rights Plan

Effective 9 May 2012, the Board of Directors has approved and adopted a shareholders rights plan (the "Rights Plan"). The Rights Plan extends the minimum expiry period for a takeover bid to 60 days and requires a bid to remain open for an additional 10 business days after an offeror publicly announces it has received tenders for more than 50% of the Company's voting shares. The principal purpose of the Rights Plan is to ensure that shareholders have sufficient time to consider a takeover bid without undue time constraints. It is designed to provide the Board of Directors additional time to consider alternatives in maximizing for shareholders the full and fair value for their common shares.

## 11. Commitments

 The Company has the following commitments related to payments required under a photocopier lease:

	< 1 year	2-5 years	> 5 years	Total
Photocopier lease payments	\$ 3,888	8,945	\$ - :	\$ 12,833

b) The Company has future commitments under exploration and evaluation property option agreements to pay cash and incur exploration expenditures (Note 5).

## 13. Comparative Figures

Certain comparative figures have been adjusted to conform to the current year's presentation.

(An Exploration Stage Company)

## **Notes to Condensed Consolidated Financial Statements**

#### 31 March 2013 and 2012

Canadian Funds

## 14. Financial Instruments and Risk Management

#### a) Financial Instruments

The carrying value of financial assets and liabilities at 31 March 2013 and 31 December 2012 are as follows:

		31 March 2013	31 December 2012
Financial Assets			
FVTPL, measured at fair value Cash and cash equivalents	\$	3,818,261	\$ 4,750,282
Loans and receivables, measured at amortized cost Receivables		12,271	458
		31 March 2013	31 December 2012
Financial Liabilities			
Other liabilities, measured at amortized cost Trade payables Due to related parties	\$ \$	1,139,934 -	\$ 579,754 55,880

The fair value hierarchy of financial instruments measured at fair value on the balance sheet is as follows:

	31 March 2013	31 December 2012
	Level 1	Level 1
Cash and cash equivalents	\$ 3,818,261	\$ 4,750,282

There were no transfers between Level 1 and 2 in the year ended 31 March 2013.

## b) Capital Management

The capital structure of the Company consists of equity attributable to common shareholders, comprising of issued capital, accumulated other comprehensive income and deficit. The Company's objectives when managing capital are to: (i) preserve capital, (ii) obtain the best available net return, and (iii) maintain liquidity.

(An Exploration Stage Company)

#### **Notes to Condensed Consolidated Financial Statements**

31 March 2013 and 2012

Canadian Funds

The Company manages the capital structure and makes adjustments to it in light of changes in economic condition and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets or adjust the amount of cash and cash equivalents and investments.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the year ended 31 March 2013. Neither the Company nor its subsidiaries is subject to externally imposed capital requirements.

#### c) Credit Risk

Credit risk is the risk of an unexpected loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises primarily from the Company's cash and cash equivalents and amounts receivable. The Company manages its credit risk relating to cash and cash equivalents by dealing only with highly-rated Canadian financial institutions. As at 31 March 2013, amounts receivable of \$41,045 (31 December 2012 - \$26,600) was comprised of Harmonized Sales Tax receivable of \$28,774 (31 December 2012 - \$26,142), interest receivable of \$4,376 (31 December 2012 - \$458) and other receivables of \$7,895 (31 December 2012 - \$Nil). As a result, credit risk is considered insignificant.

## d) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk by continuously monitoring actual and projected cash flows and matching the maturity profile of financial assets and liabilities. As the Company's financial instruments are substantially comprised of cash and cash equivalents, liquidity risk is considered insignificant.

#### e) Currency Risk

The Company is exposed to currency risk on its acquisition and exploration expenditures on its US properties since it has to convert Canadian dollars raised through equity financing in Canada to US dollars. The Company's expenditures will be negatively impacted if the US dollar increases versus the Canadian dollar.

The majority of the Company's cash flows and financial assets and liabilities are denominated in Canadian dollars, which is the Company's functional and reporting currency. Foreign currency risk is limited to the portion of the Company's business transactions denominated in currencies other than the Canadian dollar. The Company has cash and cash equivalents held in US dollars.

The Company's objective in managing its foreign currency risk is to minimize its net exposures to foreign currency cash flows by holding most of its cash and cash equivalents in Canadian dollars. The Company monitors and forecasts the values of net foreign currency cash flow and balance sheet exposures and from time to time could authorize the use of derivative financial instruments such as forward foreign exchange contracts to economically hedge a portion of foreign currency fluctuations.

(An Exploration Stage Company)

#### **Notes to Condensed Consolidated Financial Statements**

#### 31 March 2013 and 2012

Canadian Funds

The following table provides an indication of the Company's foreign currency exposures during the periods ended 31 March 2013 and 31 December 2012:

	31 March 2013	31 December 2012
Cash and cash equivalents Trade payables	US\$ 1,580,332 US\$ 832,322	US\$ 1,175,418 US\$ 399,195

A 1% change in Canadian/US foreign exchange rate at period end would have changed the net loss of the Company, assuming that all other variables remained constant, by approximately \$7,480 for the period ended 31 March 2013.

The Company has not, to the date of these condensed consolidated financial statements, entered into derivative instruments to offset the impact of foreign currency fluctuations.

## f) Interest Risk

The Company is not subject to interest risk.

## g) Commodity Price Risk

The Company is in the exploration stage and is not subject to commodity price risk.

#### 15. Subsequent Events

There were no events that occurred subsequent to 31 March 2013.

#### 16. Restatement

The Company's condensed consolidated financial statements for the three month period ended 31 March 2012 have been restated to translate the assets and liabilities of the Company's subsidiaries using the period-end exchange rate, instead of the historical exchange rate. This resulted in an increase in comprehensive loss of \$536,823, as a result of a decrease in foreign currency translation adjustment, and an increase in comprehensive loss per share of \$0.01 on the condensed consolidated statement of loss and comprehensive loss for the three month period ended 31 March 2012.
